

HD Retrievable Packer

The HD Retrievable Packer is a high pressure, full opening, compression set tool for squeeze cementing, acidizing, fracturing and other stimulation procedures. This tool features a pressure-balanced unloader that closes when the packer sets. While pressure aids in maintaining the seal the unloader can be easily opened under high differential pressure. The large internal bypass reduces swabbing when running and retrieving.

Special Features

- Large internal bypass
- Built in pressure-balanced unloader
- ¼ turn set-straight pick up release (standard)
- Equalizing ports directly above elements
- Additional J-slot arrangements available

Specification Guide

Casing				Packer			Part Number
O.D.	Weight lb/ft	Min I.D.	Max I.D.	O.D.	I.D.	Thread Connections Box up/Pin down	
4½	9.5 - 13.5	3.920	4.090	3.750	1.87	2¾ EUE	61345
5	11.5 - 15.0	4.408	4.560	4.125	1.87	2¾ EUE	61350
